

## **Sheffield LEP enter PfS Awards 2009**

Since its establishment in 2007 the Sheffield Local Education Partnership has reinforced the drive for cultural change within the Local Authority, not only delighting stakeholders associated with the schools but delivering on both time and budget.

With this in mind endorsement from the Local Authority has been granted for Sheffield's application into the Local Education Partnership of the Year as part of the PfS Awards and we look forward to the results later this year.
