

Sheffield LEP website launched!

**Sheffield LEP has launched its new website for BSF schools.**

[www.sheffieldbsfschools.com](http://www.sheffieldbsfschools.com) will illustrate progress on the £320M schools project in the city, as well as acting as a key communications channel for the public and for the BSF partners as they continue on the rebuilding/refurbishment programme.

Taylor Woodrow, Sheffield City Council, Civica, HLM Architects, Building Design Partnership and Mott Macdonald are currently working on four Sheffield schools. The first phase of Yewlands Technology College opened in September with IT fully enabled from day one.
